

## Instructions for completing:

### Clinical Assessment Form for Laser Vision Correction and Postoperative Assessment for Laser Vision Correction

We have developed these forms to make it easy for you to enter and send information to us about your patients who are wanting, or have had Laser Vision Correction.

To use these forms you will need Adobe Reader on your computer. If you do not have a copy you can download a free copy at the Adobe website ([www.adobe.com](http://www.adobe.com)).

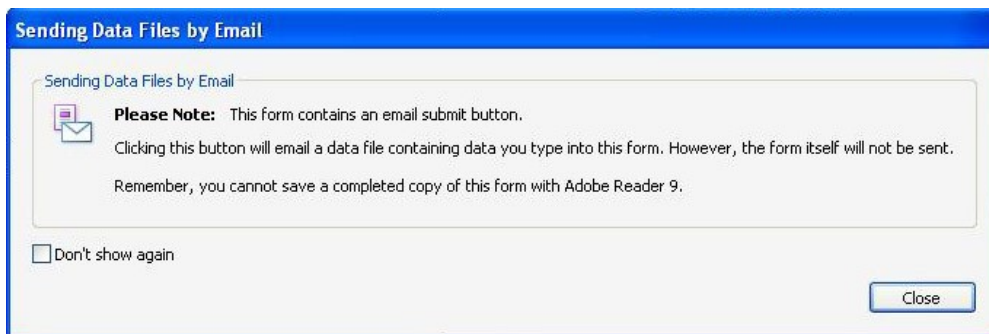

You can either send the data this form will generate by email (a 'Submit by Email' button is at the bottom of each form), or print and then either fax or send by post.

Please note, if you want to keep a copy for your records you must print a copy. You cannot save a completed copy of this form with Acrobat Reader. A 'Print Form' button is at the bottom of each form.

### To open a form:

Double click on the document you wish to use. This will then open in Adobe Reader (or Acrobat if you have it installed on your computer).

Depending on the version of Acrobat Reader you have installed on your computer, a message will appear informing you that the completed copy of the form cannot be saved with Adobe Reader.

Enter in all information as required. For some question you will see there are 'Combo Boxes' where you can select from a range of predefined options. Please select the appropriate response.

At the bottom of each form are two buttons:

**'Print Form'** click this button to print a copy for your own records and a copy if you will be posting this form

**'Submit by Email'** click this button if you wish to send the data this form has collected by email.

When you click this button, you will receive a prompt on how you wish to send the email. We anticipate you will have an active Internet connection and will therefore select 'Desktop Email Application'.

If you are currently not connected to the Internet, but wish to send the data later, click the 'Internet Email' option. You will then be prompted with a set of instructions for saving the file and sending it.

If you have any questions, please call us direct on 0800 733 326.
